**UCONN HEALTH CENTER  
LAB AT THE CTR FOR ADVANCED REPRO SVCS  
RECEIVES ACCREDITATION FROM  
COLLEGE OF AMERICAN PATHOLOGISTS**

UConn Health Center Lab at the Ctr for Advanced Repro Svcs, Farmington, Connecticut, has been awarded accreditation by the Accreditation Committee of the College of American Pathologists (CAP), based on the results of a recent onsite inspection.

The laboratory's director, Claudio A. Benadiva, MD, was advised of this national recognition and congratulated for the excellence of the services being provided. UConn Health Center Lab at the Ctr for Advanced Repro Svcs is one of more than 7,000 CAP-accredited laboratories worldwide.

The CAP Laboratory Accreditation Program, begun in the early 1960s, is recognized by the federal government as being equal to or more stringent than the government's own inspection program.

During the CAP accreditation process, inspectors examine the laboratory's records and quality control of procedures for the preceding two years. CAP inspectors also examine laboratory staff qualifications, as well as the laboratory's equipment, facilities, safety program and record, in addition to the overall management of the laboratory. This stringent inspection program is designed to specifically ensure the highest standard of care for all laboratory patients.

**About the College of American Pathologists**

The College of American Pathologists is a medical society that serves more than 17,000 physician members and the laboratory community throughout the world. It is the world's largest association composed exclusively of Board-certified pathologists and is widely considered the leader in laboratory quality assurance. The College is an advocate for high-quality and cost-effective patient care. More information about the College can be found at [www.cap.org](http://www.cap.org).
