

IVF Freeze All Possibility Plan

Access to the care you need.

How the IVF Possibility Plan Works

The IVF Freeze All Possibility Plan at The Center is open to all patients who do not have insurance coverage and qualify financially. The IVF Freeze All Possibility Plan includes one price for all cycle monitoring for blood work and ultrasounds performed at The Center, IVF teaching class, egg retrieval, anesthesia for the egg retrieval, ICSI (if appropriate, on all eggs retrieved), assisted hatching, embryo cryopreservation & facility fee. The limits of a cycle are defined beginning with monitoring and ending with embryo cyropreservation.

Costs associated with fertility work-up/checklist, diagnostic blood work and ultrasound, sonohysterogram or HSG, surgery, outside monitoring, Microfluids, Frozen Embryo Transfer or medical treatment associated with a pregnancy or an unsuccessful cycle (treatment for miscarriage, ectopic or biochemical pregnancy) are not included. Costs associated with oocyte, or sperm cryopreservation TESA/MESA, cycle medications, PGT-A/PGT-M/PGT-SR (formerly known as PGD/PGS) and storage expenses are also not included.

All participants in any Possibility Plan must sign a Possibility Plan Case Rate Waiver.

Please also reference the Frozen Embryo Transfer (FET) Possibility Plan for the additional expenses for the FET cycle.

Imagine the possibilities...

Note: Prices subject to change.
The Center reserves right to end
program at any time.
